About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

School Description

The teachers and staff at La Presa Elementary School strive to foster a positive, collaborative, learning community where students, parents, families, teachers, and staff work together for the success of all students. We are committed to providing students with a challenging and enriching education that helps them learn to read well, think clearly, communicate effectively, compute accurately, value and appreciate diversity, and work to find creative solutions to complex problems. The instructional program, developed through a collaborative effort of grade-level professional learning communities along with support staff, is designed to ensure students are equipped with the knowledge and skills required for proficiency in District Performance and California Content Standards. Data results of both teacher created formative and summative assessments as well as district benchmark assessments are used to guide classroom instruction, adjust pacing, and differentiate the educational program to meet the needs of all students. La Presa Elementary provides a comprehensive standards-based instructional program designed to support each child in reaching his/her academic potential. Professional learning communities within and across grade levels work collaboratively to ensure individual student needs are met, students are supported in the learning process, and students experience success at school. Student support at La Presa includes differentiated instruction for all students and targeted remediation for those students not performing at grade level. Our interventions include Lexia Core 5, Imagine Learning, Flex, Read Well, and other research proven interventions. La Presa's primary focus is to develop excellent readers, writers, and mathematicians through meeting each student's individual needs. We integrate social studies, science, the arts, and physical education into daily learning experiences. The entire staff encourages a positive learning environment in which students are happy and excited about becoming lifelong learners.

LPE Mission Statement: Together with families and our community, La Presa Elementary strives to inspire and equip students to become outstanding individuals who will positively affect the world. We work to know every child by name, talent, and need.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

Note: The 2016–17 and 2017–18 data are not available. The CDE is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The CAST was pilot-tested in spring 2017 and field-tested in spring 2018. The CAST will be administered operationally during the 2018–19 school year. The CAA for Science was pilot-tested for two years (i.e., 2016–17 and 2017–18) and the CAA for Science will be field-tested in 2018–19.

Note: Science test results include the CAST and the CAA for Science. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated on both assessments.

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8):

- Pupil outcomes in the subject area of physical education

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site

Opportunities for Parental Involvement (School Year 2018-19)

La Presa provides a variety of parent involvement opportunities. Many parents regularly volunteer, attend field trips, work in the Helping Hands workshop, and help at other special events. Parents are encouraged to participate in PTA, School Site Council (SSC), English Learner Advisory Committee (ELAC), and by volunteering in their children's classrooms. In addition to Back-to-School Night, Parent/Teacher conferences, and Open House, we have several themed Literacy Nights, Craft Night, Dr. Seuss Night, Character Assemblies, and end of the year sixth grade activities. If you would like to know more about becoming involved at LPE, please contact Kelley Rabasco, Principal, at 619.668.5790, ext. 4599

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

School Safety Plan

Current site Comprehensive School Safety Plans (CSSP) are received by the district each year and are approved by the La Mesa-Spring Valley School Board of Education. Each site's plan outlines systems, programs, and practices in place to ensure a safe school environment including, but not limited to, child abuse reporting, disaster preparedness, campus access, and drug and alcohol education and cessation. Each site has one teacher appointed as the school's Health and Safety Officer. This person and the site principal presented their School Safety Plans to their respective School Site Council for review and acceptance prior to submission to the Board of Education.

Professional Development provided for Teachers

Professional learning in La Mesa-Spring Valley continues evolving to cultivate capacity and efficacy of teachers so that they can ensure high levels of learning for each and every student. In recent years professional learning has emphasized developing a common language around high quality teaching and learning and building collaborative cultures that promote high levels of learning for all students through professional learning communities. This work has included a deeper dive into content standards through the selection of essential standards and discussions around mastery and effective assessment. In response to student performance data and classroom observation, current professional learning focuses on aligning instruction to standards and student experience, with extra time and resources dedicated to mathematics and English learners. Additional professional development continues to address professional learning communities, curriculum adoptions, differentiation, special education, NGSS and effective integration of technology into instruction.

With professional learning communities as a foundation, professional development is approached from multiple angles to ensure that it is relevant, timely, and targeted to both student and teacher needs. Teachers meet weekly, as a grade level or discipline, to analyze student data and discuss best practices to address the needs of each and every student. The district offers workshops and multiple-day seminars, after-school workshops, and one-on-one coaching and modeling. Professional development was offered 67 days in the 2016-17 school year and 63 days in 2017-18 school year. Professional development is being offered 74 days in the 2018-2019 school year. District staff also partners with principals providing professional development at site learning days and staff meetings. Select teachers also attend conferences and workshops offered through outside agencies.
