## A MESSAGE FROM MRS. THOMAS

Dearest LMAAC Families,

Another week, but this one brings much hope! Vaccinations become available this week for our staffs which will bring much needed relief as we prepare for re-opening. I hope that you have read Superintendent Feliciano's communication this week, as it will provide information regarding re-opening. Our middle schools are meeting on Monday, with our district leadership, to finalize our plans. Why the extra time for middle schools and academies? In a nutshell-all four of us are different in our master schedules, bell schedules, and student populations. Our re-opening plans will be different from the elementary school because we don't operate as an elementary school. We (middle schools) may likely differ from each other as well, but we differ in normal settings, too. Our proposals, once approved and shared, will address questions regarding distance learning and in-person instruction. Thank you, once again, for your patience! I promise all will be shared as soon as we receive approval to do so!

Regards,  
Mrs. Thomas
