

## LEGO Engineering After School Class at Murdock Elementary

**Adventures in STEM using LEGO®** - 1:05-2:35 - Grades K-3 - Tuesdays - Aug 27 - Oct 29  
(no class 10/8 & 10/15)

Tap into your imagination with tens of thousands of LEGO® parts! Build engineer-designed projects such as: Boats, Snowmobiles, Catapults, and Merry-Go-Rounds. Design and build as never before, and explore your craziest ideas in a supportive environment. There are no prerequisites for this course.

Children already naturally enter Engineers! They have an enormous collection of LEGOs. And while they build elaborate creations they explore fundamental principles of engineering and physics. They also learn to collaborate and create with others, not mistakes. The experience is joyful, the impact long lasting. **Learn more at [play-well.org](http://play-well.org).**
