

## YEARBOOK (DESIGN)

Yearbook class for 7th and 8th graders aligns coursework in accordance with the International Baccalaureate standards for Design.

Students will

- learn about and enjoy the design process,
- design and create solutions to solve real world problems while using the design cycle,
- use and apply technology to communicate and process information, model and create solutions, and solve problems,
- honor and appreciate other perspectives and solutions to problems,
- demonstrate IB principles (traits) throughout their work

Sample projects will include trimesterly deadline assignments for the yearbook: Double page spreads in the Yearbook, Photography Composition projects, Marketing the yearbook projects.
