RFP 18/19-001 Technology Equipment E-Rate Year (2019/2020)

QUESTIONS AND ANSWERS #1

1. So this is the re-posting? No changes to the specs requested, just updated language to meet the USAC requirements?

Yes we are re-posting the Technology Equipment RFP. The bid document has been rewritten. Please read the document in its entirety and respond accordingly.

2. I am looking at the RFP for the Spring Valley School District, and I see that there is no walk set up for this job. With this being a cabling job, a walk would help us very much to get a better idea of what is needed for the job, as well as how much it will cost. If this is the wrong email for this request, please redirect me to the correct contact.

This is not a cabling project. The district will not have a job walk for this RFP.
