About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

School Description

The Maryland Avenue School community works together to create a caring and supportive environment that challenges students to achieve academic success and become confident, productive citizens. We are committed to providing a challenging and enriching education that assists students in developing the skills necessary to read well, think clearly, communicate effectively, compute accurately, value and appreciate diversity, and work to find creative solutions to complex challenges. 22 classroom teachers, together with Specialized Academic Instructors, Speech-Language Pathologists and a reading specialist, create successful learning experiences for each of the 560 children within our learning community of preschool through sixth grade.

Our comprehensive academic program, designed to meet diverse instructional needs, is developed by teams of grade-level teachers to maximize student achievement and is aligned with District Performance and California State Standards. Professionals within our school work collaboratively to ensure individual student needs are met, students are supported with their learning, and experience success at school. Ongoing analysis of student performance data allows staff to look critically at programs and practices and adjust instruction to maximize student growth and mastery of standards. Student support at Maryland Avenue includes differentiated instruction for PACE (Programs for Acceleration, Challenge, and Enrichment), EL (English learners), and at-risk students. Oasis Reading Tutors, intervention groups, and enrichment activities ensure that the needs of every child are met. In addition, we provide WIN time (What I Need) to support students of all ability levels as well as reading intervention and English Language Development (ELD) interventions through our Intervention teacher. Ongoing teacher coaching and professional growth opportunities keep educators current in their knowledge and application of best practices. Through meetings of grade-level teams, staff, and School Site Council (SSC), recommendations and decisions are made to support students in their pursuit of academic excellence.

The combined efforts of highly qualified school staff, actively involved parents, and a supportive community ensure children at Maryland Avenue experience success each and every day. Maryland Avenue School's Peace Builder program supports our students in becoming productive, caring citizens by working to build the self-confidence of students and increase their abilities to solve interpersonal problems peacefully. Our fee-based preschool program, Smart Steps, begins the child's educational experience and sets the stage for future academic success. A variety of after-school enrichment classes provide additional opportunities for students to advance their skills and develop their interests. Through our comprehensive instructional programs and our commitment to every child learning every day, students are met with success.

School Facility Conditions and Planned Improvements (Most Recent Year)

Maryland Avenue's campus is surrounded by perimeter fencing. All gates are locked during school hours requiring all visitors to check in at the front office. The school is kept clean by 2 custodians. Ongoing maintenance is used to keep facilities in good condition. Examples of recent maintenance is touch up paint on exterior walls, repair of rain gutters, and plumbing repairs. Each year our school is inspected and receives a FIT report.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

2017-18 CAASPP Results for All Students						
Subject	Percent of Students Meeting or Exceeding the State Standards (grades 3-8 and 11)					
	School		District		State	
	16-17	17-18	16-17	17-18	16-17	17-18
ELA	50.0	56.0	50.0	53.0	48.0	50.0
Math	38.0	41.0	38.0	40.0	37.0	38.0

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter

Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students						
Subject	Percent of Students Scoring at Proficient or Advanced (meeting or exceeding the state standards)					
	School		District		State	
	16-17	17-18	16-17	17-18	16-17	17-18
Science	N/A	N/A	N/A	N/A	N/A	N/A

Note: Cells with N/A values do not require data.

Note: The 2016–17 and 2017–18 data are not available. The CDE is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The CAST was pilot-tested in spring 2017 and field-tested in spring 2018. The CAST will be administered operationally during the 2018–19 school year. The CAA for Science was pilot-tested for two years (i.e., 2016–17 and 2017–18) and the CAA for Science will be field-tested in 2018–19.

Note: Science test results include the CAST and the CAA for Science. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated on both assessments.

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8):

- Pupil outcomes in the subject area of physical education

Grade Level	2017-18 Percent of Students Meeting Fitness Standards		
	4 of 6	5 of 6	6 of 6
5	14.9	34.0	25.5

* Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site

Opportunities for Parental Involvement (School Year 2018-19)

Maryland Avenue School strongly encourages and supports parental involvement through:

Engagement - Parents can be engaged in their child's education by attending Back to School Night, Parent Conferences and Open House. We also encourage parents to have regular communication with their child's teacher and read all communications sent home from school to stay informed.

Parent Volunteering Opportunities – Parents serve as volunteers in the classrooms, on field trips and throughout our school programs and activities. Parents can volunteer in the office to complete projects for teachers, enhancing the learning experiences in the classrooms.

Run Club - Parents volunteer each morning to provide students with a morning exercise program, creating a positive healthy lifestyle and to be role models for students.

PTA – Our active and involved PTA supports Maryland Avenue students, staff, and parents in a variety of ways. The PTA Board meets monthly and provides support for school programs and activities, including assemblies, fundraisers, Family Nights, book fairs, and evening activities.

School Site Council (SSC) – An elected group of parents and staff meets quarterly to study the effectiveness of curriculum and instruction, and make recommendations for allocating site funds. All volunteers should fill out a volunteer form in the front office.

English Language Acquisition Committee (ELAC) – A group of parents who meet a minimum of five times a year to receive information on special programs and services for our students who speak/hear another language in their home. ELAC also offers parents with parent education to help support their children's education.

To learn more about getting involved please contact our Office Manager, Nina White, or our Principal, Kelli Maringer at 619.668.5744.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

School Safety Plan

Maryland Avenue's site Comprehensive School Safety Plans (CSSP) is submitted to the district each year in the fall and are approved by the La Mesa-Spring Valley School Board of Education. Maryland Avenue's site's plan outlines systems, programs, and practices in place to ensure a safe school environment including, but not limited to, child abuse reporting, disaster preparedness, campus access, and drug and alcohol education and cessation. Ms. Ziegler is appointed as the school's Health and Safety Officer. Together with the site principal, Ms. Ziegler presented the School Safety Plan to School Site Council in November for review and acceptance prior to submission to the Board of Education.

Professional Development provided for Teachers

Professional learning in La Mesa-Spring Valley continues evolving to cultivate capacity and efficacy of teachers so that they can ensure high levels of learning for each and every student. In recent years professional learning has emphasized developing a common language around high quality teaching and learning and building collaborative cultures that promote high levels of learning for all students through professional learning communities. This work has included a deeper dive into content standards through the selection of essential standards and discussions around mastery and effective assessment. In response to student performance data and classroom observation, current professional learning focuses on aligning instruction to standards and student experience, with extra time and resources dedicated to mathematics and English learners. Additional professional development continues to address professional learning communities, curriculum adoptions, differentiation, special education, NGSS and effective integration of technology into instruction.

With professional learning communities as a foundation, professional development is approached from multiple angles to ensure that it is relevant, timely, and targeted to both student and teacher needs. Teachers meet weekly, as a grade level or discipline, to analyze student data and discuss best practices to address the needs of each and every student. The district offers workshops and multiple-day seminars, after-school workshops, and one-on-one coaching and modeling. Professional development was offered 67 days in the 2016-17 school year and 63 days in 2017-18 school year. Professional development is being offered 74 days in the 2018-2019 school year. District staff also partners with principals providing professional development at site learning days and staff meetings. Select teachers also attend conferences and workshops offered through outside agencies.

Each year, student achievement data at Maryland Avenue is used to determine the need for professional development in the area of reading and math instruction. Professional development is delivered primarily after school during staff meetings and Site Learning Days. In addition, teachers can attend after school workshops, conference, and access individual mentoring. Teachers are supported during implementation through in-class coaching, teacher-principal observations and meetings, and student performance data reporting.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
