

# Choose a health plan designed for simplicity, choice and savings.

The UnitedHealthcare SignatureValue® Harmony plan helps you navigate the health care system easier—while providing access to doctors who may help guide you to better health and lower costs.

## Three keys to the Harmony health plan:

- 1 Receive concierge service from a dedicated call center.** Our personal advocates offer one-stop call resolution to respond to your questions relating to care, benefits and coverage. They'll even call you when your plan starts, to respond to questions you have right off the bat.
- 2 Choose a primary care physician (PCP) from a network of well-known providers.** This plan makes it easier to access convenient care from physicians who follow a best-practice model. Your PCP can be your partner in managing your health—providing preventive care, helping you find more affordable medication and connecting you with specialists and facilities in the network, if needed.
- 3 Get 24/7 access to information, care and tools:**
  - NurseLine lets members talk to an experienced registered nurse.
  - Virtual Visits offer online access to physicians who can write prescriptions as needed.
  - **myuhc.com**® helps you manage your plan at home. And Health4Me®, our mobile app, offers plan information on the go.
