

Integrated Pest Management Plan

Healthy Schools Act Requirements for Public K-12 Schools and Child Care Centers

IDENTIFY

Choose an IPM coordinator who will make sure the requirements of the HSA are met.

PLAN

Create a plan for IPM and publish it on the school, district, or child care center website. If a website does not exist, include the plan in the annual written notification.

TRAIN

Provide annual Healthy Schools Act training to all teachers, staff, and volunteers who use any pesticides, including exempt pesticides.

POST

Post warning signs in the area where a pesticide will be applied, at least 24 hours before and 72 hours after the application.

NOTIFY

Send an annual notification to all parents, guardians, and staff of all pesticides expected to be applied during the year.

RECORD

Keep records of pesticide applications, and file these records for at least 4 years.

REGISTER

Give parents, guardians, and staff the opportunity to register to be notified 72 hours in advance of individual pesticide applications.

REPORT

Submit annual pesticide use reports to DPR by January 30 for the previous year's applications. Only report pesticide use by school personnel.

Visit our website: <http://apps.cdpr.ca.gov/schoolipm/>

School District Integrated Pest Management Plan

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan.
An IPM plan is required if a school district uses pesticides¹

Contacts

La Mesa-Spring Valley School District	4750 Date Avenue, La Mesa, CA 91942	
School District Name	Address	
Daniel Bradley	(619) 668-5760	daniel.bradley@lmsvsd.net
District IPM Coordinator	IPM Coordinator's Phone Number	Email Address

IPM statement

It is the goal of La Mesa-Spring Valley School District to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: *(Example: Focus on long-term pest prevention)*

Prevent or suppress pest problems through a combination of techniques such as monitoring for pest presence and establishing treatment threshold levels, using nonchemical practices to make the habitat less conducive to pest development, improving sanitation, and employing mechanical and physical controls.

IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title	Role in IPM program
Daniel Bradley	IPM Coordinator
Martin Lupian	+ Pest Control Application Technician

Pest management contracting

- ☒ Pest management services are contracted to a licensed pest control business.
Pest Control Business name(s): Aardvark Ant & Pest Control Inc.
- ☒ Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

Pest identification, monitoring and inspection

Pest Identification is done by: La Mesa-Spring Valley School District Staff
(Example: College/University staff, Pest Control Business, etc.)

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by District Staff + and results are communicated to the IPM Coordinator.
(Example: District staff title, e.g. Maintenance staff)

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:
(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)

Installation of sticky monitoring boards in all facilities that are checked periodically by pest control technician.

Pests and non-chemical management practices

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
Rodents	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
Mosquitoes	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
Ants	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
Roaches	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	
Weeds	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

Chemical pest management practices

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This school district expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):

Ranger Pro with Glyphosate for weeds, JT Eaton apple bait block, Rodenticide for rodents with Dipacinore, Max Force Gel Bait with Fipronil and Max Force Granular with Hydramethylnon, Phantom Termiticide with Chlorfenapyr, Wisdom TC Flowable with Bifenthrin for ants and roaches, Wasp Freeze with d-trans Allethrin-Phenothrin, Alpine dust insecticide with Diatomaceous Earth for bees, Pro Control Aerosol with Pyrethrins Piperonyl Butoxide for insects, Advion insect granule with Methyl for mosquitos, Archer insecticide growth regulator with Pyriproxyfen Pyridine for insects

Healthy Schools Act

- ☒ This school district complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608 - 17613, 48980.3; Food & Agricultural Code Sections 13180 - 13188)

Training

Every year school district employees who make pesticide applications receive the following training prior to pesticide use:

- ☒ Pesticide specific safety training (Title 3 California Code of Regulations 6724)
- ☒ School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5).

Submittal of pesticide use reports

- ☒ Reports of all pesticides applied by school district staff during the calendar year, except pesticides exempt¹ from HSA recordkeeping, are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form provided at www.cdpr.ca.gov/schoolipm. (Education Code Section 16711)

Notification

This school district has made this IPM plan publicly available by the following methods (check at least one):

- ☐ This IPM plan can be found online at the following web address: _____
- ☒ This IPM plan is sent out to all parents, guardians and staff annually.

Review

- ☒ This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true and correct.

Date of next review: June 30, 2022

I acknowledge that I have reviewed this school district's IPM Plan and it is true and correct.

Signature: Daniel W. Bradley

Date: 8-27-21

¹ These pesticides are exempt from all Healthy Schools Act requirements, except the training requirement: 1) products used in self-contained baits or traps, 2) gels or pastes used as crack and crevice treatments, 3) antimicrobials, and 4) pesticides exempt from U.S. EPA registration. (Education Code Section 17610.5)

Use this form ONLY to report pesticide applications made by schoolsite employees, staff, and volunteers at schools and child care centers. DO NOT report pesticide use by pest management professionals contracted to apply pesticides at schoolsites. They will report their own use. Report must be submitted no later than January 30th of the year following the year of use to:
School Pesticide Use Reporting, Department of Pesticide Regulation, P.O. Box 4015, Sacramento, CA 95812-4015

INSTRUCTIONS:

1. Each line is an individual pesticide application. Report only one schoolsite, date/time, and pesticide per line. Multiple pages will be needed if you need to report more than 5 pesticide applications.
2. A name and address is required for each schoolsite. A cover sheet with all schoolsite names/addresses can be included with your report to prevent repetitive writing/typing.
3. Applicators: If you are mixing a concentrate with a liquid, report the amount of concentrate applied. For products that don't require dilution, report the amount of finished product applied.

PEST CONTROL CODES:

Code 10 - Structural Pest Control includes pest control work performed within or on buildings or other structures

Code 30 - Landscape Maintenance Pest Control... includes pest control work performed on landscape plantings around buildings

Code 80 - Vertebrate Pest Control includes pest control work performed by public agencies or work under the supervision of the State or county agricultural commissioner

LOCATION CODES:

1 Administration Bldg	5 Cafeteria/Kitchen	9 Landscape (indoor)	13 Multipurpose Room	17 Vehicle
2 Athletic Field	6 Classroom	10 Landscape (outdoor)	14 Playground	18 Multiple Locations
3 Auditorium	7 Gymnasium	11 Library	15 Pool	19 Other (Please indicate)
4 Bldg, Exterior	8 Hardscape (parking lot, sidewalk, etc.)	12 Locker Room	16 Restroom	

Reason for application is not required for reporting. This form, when filled out completely, can be used as the pesticide use record required under HSA.
Reasons for application (required for Healthy Schools Act recordkeeping).

LA MESA-SPRING VALLEY
SCHOOL DISTRICT

Annual Notification

2021-22

The La Mesa-Spring Valley
School District is required to
annually notify pupils,
parents, and guardians of
their rights and
responsibilities, pursuant to
California Education Code
(EC) 48980.

An acknowledgment of
receipt of this notice must be
signed by the parent or
guardian and returned to the
school as required by EC
48982.

If a school decides to notify parents through distributing the information in a letter and posting the information on the school's Internet Web site or page, then it need not also include the information in the annual parent notification.

PUPIL SUICIDE PREVENTION POLICIES-EC 215

Before the beginning of the 2020-21 school year, the governing board or body of a local educational agency that serves pupils in kindergarten and grades 1 to 6 shall adopt a policy on pupil suicide prevention for the above grade levels. The age appropriate policy shall be developed in consultation with school and community stakeholders, the county mental health plan, school-employed mental health professionals, and suicide prevention experts. The policy shall also, at minimum, address procedures relating to suicide prevention, intervention, and postvention.

WELLNESS POLICY

TOBACCO-FREE CAMPUS-HSC 104420, 104495

LMSVSD receives Tobacco Use Prevention funding to adopt and enforce a tobacco-free campus policy. Information about the policy and enforcement procedures may be found online at www.lmsvschools.org. Health and Safety Code section 104495 prohibits smoking and use of any tobacco-related products and disposal of any tobacco-related waste within 25 feet of a school playground. The prohibition does not apply to a public sidewalk located within 25 feet of a playground.

LOCAL SCHOOL WELLNESS POLICY-EC 49432

The local school wellness policy for each LMSVSD school is available at www.lmsvschools.org. In addition, a summary of the nutrition and physical activity laws and regulations applicable to LMSVSD schools is available at www.lmsvschools.org

SCHOOL MEAL PROGRAM

IMPORTANT INFORMATION FOR 2021-2022 SCHOOL YEAR

The USDA has granted free meals for all children for the 2021-2022 school year. Applications will not be utilized due to this waiver.

PUPIL NUTRITION-EC 49510-49520; 49564-49564.5, 49557.5

Free or reduced-priced meals are available for all students in the 2021-22 school year. The federal National School Lunch Program and the federal School Breakfast Program ensure that pupils whose parents or guardians have unpaid school meal fees are not shamed, treated differently, or served a meal different from the pupil's choice because of the fact that the pupil's parent or guardian has unpaid meal fees. Meal program details are provided at the pupil's school site. All parents and guardians receive a letter with the application form upon enrollment. If you still wish to apply for free or reduced-price meals in order to take advantage of other services, households must fill out the application and return it to the school or apply online at www.lmsvschools.org. Some schools operated by LMSVSD may provide breakfast and lunch to all students free of charge pursuant to a universal meal program. A list of the participating schools is available at www.lmsvschools.org.

PESTICIDE PRODUCTS

USE OF PESTICIDES-EC 17612, 48980.3

Pesticides -Pesticide Products- Healthy Schools Act-EC 17612, 48980.3, EC 48980.3, 17612:

The District selects and uses the least hazardous methods and materials available to control pests/weeds. Furthermore, pesticides are used only on an as-needed basis and through precision targeting to areas not contacted by students and/or staff. If it is necessary to use a pesticide, parents and staff will be informed 72 hours in advance of use through the school newsletter, flyer, or notice posted at the site. The Healthy Schools Act of 2001 requires the District to provide information with regard to the use of pesticides. Products we expect to use this year will include Ranger Pro-with Glyphosate for weeds, JT Eaton apple bait block, Rodenticide for rodents with Dipahcinore, Max Force Gel Bait with Fpronil and Max Force Granular with Hydramethylnon, Phantom Termiticide with Chlorfenapyr, Wisdom TC Flowable with Bifenthrin for ants and roaches. Wasp Freeze with d-trans Allethrin-Phenothrin, Alpine Dust insecticide with Diatomaceous Earth for bees, Gentrol- insect growth regulator with Hydroprene for insects. Altosid-larvicide with Methoprene for mosquitoes, PT Alpine pressurized insecticide with Methyl for Flea, Bed Bugs and Ticks. Pyrethrin Fogger with Piperonyl Butoxide for Insects. Advion insect granules with Methyl for mosquitos. All chemicals have a CAUTION signal word.

Persons wishing to be notified in advance of individual pesticide applications may register with the District for that purpose. To register, contact: Daniel.Bradley@lmsvschools.org. Additional information on pesticides is made available by the Department of Pesticide Regulation at www.cdpr.ca.gov.

LMSVSD has developed an integrated pest management plan to provide a safe and low-risk approach to manage pest problems while protecting the environment, people and property. LMSVSD's integrated pest management plan can be found on www.lmsvschools.org and parents or guardians may also view the integrated pest management plan at the Facilities Office at the Operations Center during normal business hours.

Regulation 3514.2: Integrated Pest Management

Status: ADOPTED

Original Adopted Date: 05/01/2018 | **Last Reviewed Date:** 05/01/2018

Definitions

Integrated pest management (IPM) means a strategy that focuses on long-term prevention or suppression of pest problems through a combination of techniques such as monitoring for pest presence and establishing treatment threshold levels, using nonchemical practices to make the habitat less conducive to pest development, improving sanitation, and employing mechanical and physical controls. (Education Code 17609; Food and Agricultural Code 13181)

School site means any facility used as a child day care facility or for kindergarten, elementary, or secondary school purposes and includes the buildings or structures, playgrounds, athletic fields, vehicles, or any other area of property visited or used by students. (Education Code 17609)

Program Components

The Superintendent or designee shall designate an employee at the district office and/or school site to develop, implement, and coordinate an IPM strategy that incorporates effective, least toxic pest management practices.

The IPM coordinator shall prepare and annually update a districtwide or school site IPM plan based on the template provided by the California Department of Pesticide Regulation (DPR).

The IPM plan shall include the name of the district and/or school IPM coordinator, the pesticides expected to be applied at the school site by district employees and/or pest control applicators, and a date that the plan shall be reviewed and, if necessary, updated. (Education Code 17611.5)

The district shall use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property, and the environment. Such pesticides shall only be used after careful monitoring indicates they are needed according to pre-established guidelines and treatment thresholds. (Food and Agricultural Code 13181)

The IPM plan and this administrative regulation shall not apply to reduced-risk pesticides, including self-contained baits or traps, gels or pastes used for crack and crevice treatments, antimicrobials, and pesticides exempt from registration by law. (Education Code 17610.5; 3 CCR 6147)

The district's program shall include, but not necessarily be limited to, the following components:

1. Identifying and monitoring pest population levels and identifying practices that could affect pest populations. Strategies for managing the pest shall be influenced by the pest species and whether that species poses a threat to people, property, or the environment.
2. Setting action threshold levels to determine when pest populations or vegetation at a specific location might cause unacceptable health or economic hazards that would indicate corrective action should be taken.
3. Modifying or eliminating pest habitats to deter pest populations and minimize pest infestations.
4. Considering a full range of possible alternative cost-effective treatments. Such alternative treatments may include taking no action or controlling the pest by physical, horticultural, or biological methods. Cost or staffing considerations alone will not be adequate justification for the use of chemical control agents.
5. Selecting nonchemical pest management methods over chemical methods whenever such methods are effective in providing the desired control or, when it is determined that chemical methods must be used, giving preference to those chemicals that pose the least hazardous effects to people and the environment.

No pesticide that is prohibited by DPR or the U.S. Environmental Protection Agency, as listed on the DPR web site, shall be used at a school site. (Education Code 17610.1)

6. Limiting pesticide purchases to amounts needed for the year. Pesticides shall be stored at a secure location that is not accessible to students and unauthorized staff. They shall be stored and disposed of in accordance with state regulations and product label directions.

7. Informing parents/guardians and employees regarding pesticide use as described in the sections "Notifications" and "Warning Signs" below.
8. Ensuring that persons applying pesticides follow label precautions and are sufficiently trained in the principles and practices of IPM as described in the section "Training" below.
9. Evaluating the effectiveness of treatments to determine if revisions to the IPM plan are needed.

Training

The IPM coordinator and any employee or contractor who may be designated to apply a pesticide at a school site shall annually complete a DPR-approved training course on IPM and the safe use of pesticides in relation to the unique nature of school sites and children's health. (Education Code 17614; Food and Agricultural Code 13186.5)

Any district employee who handles pesticides shall also receive pesticide-specific safety training prior to applying pesticides and annually thereafter in accordance with 3 CCR 6724.

Notifications

Staff and parents/guardians of students enrolled at a school site shall be annually notified, in writing, regarding pesticide products expected to be applied at the school site in the upcoming year. The notification shall include at least the following: (Education Code 17612)

1. The name of each pesticide product expected to be applied in the upcoming year and the active ingredient(s) in it
2. The Internet address (<http://www.cdpr.ca.gov/schoolipm>) used to access information on pesticides and pesticide use reduction developed by the DPR pursuant to Food and Agricultural Code 13184
3. If the school has posted its IPM plan, the Internet address where the plan may be found
4. The opportunity to view a copy of the IPM plan in the school office
5. An opportunity for interested persons to register to receive prior notification of each application of a pesticide at the school site
6. Other information deemed necessary by the IPM coordinator

Whenever a person registers to receive notice of individual pesticide application pursuant to item #5 above, the IPM coordinator shall notify such registered persons of individual pesticide applications at least 72 hours prior to the application. The notice shall include the product name, the active ingredient(s) in the product, and the intended date of application. (Education Code 17612)

If a pesticide product not included in the annual notification is subsequently intended for use at a school site, the IPM coordinator shall provide written notification of its intended use to staff and parents/guardians of students enrolled at the school, at least 72 hours prior to the application. (Education Code 17612)

If a school chooses to use a pesticide not exempted pursuant to Education Code 17610.5, it shall post the school or district IPM plan on the school's web site or, if the school does not have a web site, then on the district web site. If neither the school nor district has a web site, then the IPM plan shall be included with the annual notification sent to staff and parents/guardians pursuant to Education Code 17612 as described above. When not required, the IPM coordinator may post or distribute the IPM plan at his/her discretion. (Education Code 17611.5)

Whenever the IPM coordinator deems that the immediate use of a pesticide is necessary to protect the health and safety of students, staff, or other persons at the school site, he/she shall make every effort to provide the required notifications prior to the application of the pesticide. (Education Code 17612)

Warning Signs

The IPM coordinator shall post a warning sign at each area of the school site where pesticides will be applied that shall be visible to all persons entering the treated area. The sign shall be posted at least 24 hours prior to the application and shall remain posted until 72 hours after the application. The warning sign shall prominently display the following information: (Education Code 17612)

1. The term "Warning/Pesticide Treated Area"
2. The product name, manufacturer's name, and the EPA's product registration number
3. Intended areas and dates of application
4. Reason for the pesticide application

When advance posting is not possible due to an emergency condition requiring immediate use of a pesticide to protect the health and safety of students, staff, or other persons or the school site, the warning sign shall be posted immediately upon application and shall remain posted until 72 hours after the application. (Education Code 17609, 17612)

Records

At the end of each calendar year, the IPM coordinator shall submit to DPR, on a form provided by DPR, a copy of the records of all pesticide use at the school site for that year, excluding any pesticides exempted by law and any pesticide use reported by the pest control operator pursuant to Food and Agricultural Code 13186. The IPM coordinator may submit more frequent reports at his/her discretion. (Education Code 17611)

Each school site shall maintain records of all pesticide use at the school for four years, and shall make the information available to the public, upon request, in accordance with the California Public Records Act. A school may meet this requirement by retaining a copy of the warning sign posted for each pesticide application with a recording on that copy of the amount of the pesticide used. (Education Code 17611)

Pesticide Use near School Site

Upon receiving notification pursuant to 3 CCR 6692 that a grower expects to use agricultural pesticides within one-quarter mile of a school site Monday through Friday from 6:00 a.m. to 6:00 p.m., the principal or designee shall notify the Superintendent or designee, IPM coordinator, staff at the school site, and parents/guardians of students enrolled at the school.

The principal or designee may communicate with any grower within one-quarter mile of the school to request that the grower not apply pesticides during evenings or weekends when school activities are scheduled.
