Affordable Care

Lower health care costs

Prescription Savings

(UHC and UMR members)

VEBA does not want cost to become a barrier to getting treatment for hypertension and diabetes – some of our members' most common conditions. Copays will be waived for generic hypertension and preferred generic oral hypoglycemic medications when filled at a Smart90 retail or mail-order pharmacy.

ESI members also have access to the SaveonSP program, which waives copays for certain specialty medications and ensures that, once enrolled, you have no financial responsibility. These medications will continue to be filled through Accredo.

To learn more, visit Express-Scripts.com or call [800-918-8011](tel:800-918-8011).
