2021-2022 School Accountability Report Card

(Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

Casa de Oro is a small community school that serves 378 preschool through sixth grade students in the heart of Spring Valley. As a small school community, Casa de Oro staff works collaboratively with families to “Grow Minds and Build Leaders” through dynamic programs that support individual student needs and create opportunities for the academic and social emotional growth and success of all our students. Every month, the school community comes together to participate in a Cougar Rally. This event is designed to recognize and celebrate student achievements, participate in community building activities and to have FUN! Students are also recognized for exhibiting Casa de Oro character traits at our Cougars of the Month awards ceremony.

Our Core Values include:

- Promoting innovative and creative thinkers for the 21st century.
- Providing a high quality and rigorous education for all students.
- Fostering caring and empathetic relationships with students, families, and the surrounding community.
- Understanding that every student is a scholar who uses respect, honesty, and understanding to build a community.

Our school is made up of 12 classroom teachers, 2 Specialized Academic Instructors, 3 Special Day Class teachers, 1 Special Day Class preschool teacher, 2 Speech and Language Pathologists, 1 intervention teacher, an Instructional Data and Support teacher, school psychologist, social worker, and 20 special education paraprofessionals. In addition, OASIS tutors support reading development and comprehension through weekly tutoring sessions with a small group of students. Teachers meet in Professional Learning Communities to look at student work samples, review student data, create Common Formative Assessments, and discuss best practices in order to support student learning. This group of dynamic educators, work collaboratively to create a school community that is safe, inclusive, restorative, and meets the diverse needs of our students. The high-quality instruction that takes place every day at Casa de Oro is aligned to the Common Core Standards which promote 21st Century learning skills including communication, collaboration, critical thinking, and creativity. School activities include a partnership with the Sage Garden Project that focuses on vegetable gardening, Farm to Table, and the culinary arts. In addition, Casa de Oro has partnered with Spring Valley Kiwanis to implement a K-Kids Club. This community service club provides 5th and 6th grade students with opportunities to develop leadership skills and to serve the Casa de Oro school and community. Lastly, Casa de Oro students also participate in robotics, coding, Cougar Pals, and art.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

Principal, custodians, and maintenance department work collaboratively to continuously inspect the facilities on a regular basis. Work orders are generated when needed, and maintenance is performed as required. An annual FIT report is conducted each year to ensure that the facilities are safe and conducive to learning. Schools also receive annual visits from the fire marshall. Fire extinguishers are inspected annually as well.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

LMSV administered the i-Ready diagnostic assessment to its students in lieu of the statewide summative assessment in 2021.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

In order to strengthen our home-school partnership, I encourage you to engage with the Casa de Oro school community. We are so fortunate to have a strong parent community, and your support makes a huge difference! Constant communication between parents, teachers, and school administration is a critical component to the success of our students.

At Casa de Oro, we welcome parent participation and encourage active involvement in a number of ways:

- Come to campus and eat lunch with your child.
- Volunteer in your child's classroom, in the library, at recess, in the morning, or at dismissal, work in the garden, and help with cooking classes.
- Be a part of the school decision making process by attending School Site Council (SSC) and English Language Advisory Committee (ELAC). In addition, Casa de Oro PTA offers many opportunities for parent involvement. You can serve as a member of the PTA Board or you can help out at one of the many PTA sponsored school events. Please contact our school office manager (Kim Diaz) for more information at (619) 668-5715.

Thank you for entrusting the staff at Casa de Oro with your most precious gift...your child! I hope that you will find Casa de Oro to be a place where we are "Growing Minds and Building Leaders."

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

2022-23 School Safety Plan

In La Mesa-Spring Valley School district, each site creates a Comprehensive School Safety Plan (CSSP). Site plans outline systems, programs, and practices in place to ensure a safe school environment including, but not limited to, child abuse reporting, disaster preparedness, campus access, and drug and alcohol education and emergency response. These plans are approved by the school site council (in December) and later by the La Mesa-Spring Valley School Board of Education (in February).

Each school site has one teacher appointed as the school's Safety Lead. This person attends monthly safety meetings and professional developments with the district's Chief Safety Officer and implements safety initiatives at their sites, in collaboration with site administration. The Safety Lead supports the creation of the site's CSSP and is a member of the larger safety team on each site. The safety team is responsible for periodically conducting hazard and vulnerability assessments of the campus, setting goals and action steps relative to the district Safety Standards, engaging in a Safety Standards Self Assessment, and creating school-wide safety plans and protocols that are detailed in the CSSP.

Lastly, La Mesa-Spring Valley continues to focus on the safety of staff and students in our district through facilities and infrastructure initiatives. Currently, the district is beginning the implementation of the CrisisGo Emergency Response Platform to strengthen communication and consistency in the event of an emergency. Increased measures for campus safety are also being implemented as part of a series of Facilities Master Plan improvements including but not limited to extensions of current fencing, securing locked gates, implementing single points of entry to campus, and initiating remote entry controlled by office staff at each school site in the district. Such added measures are added to the CSSP, where relevant.

Professional Development

Professional learning in La Mesa-Spring Valley School District (LMSVSD) continues evolving to cultivate capacity and efficacy of teachers so they can ensure high levels of learning for each and every student. In recent years, professional learning has emphasized developing a common language around high quality teaching and learning and building collaborative cultures that promote high levels of learning for all students through professional learning communities. This work has included a deeper dive into content standards through the selection of essential standards and discussions around mastery and effective assessment, social-emotional learning and having an equity lens in all of our work. In response to student performance data and classroom observation, current professional learning focuses on aligning instruction to standards and student experience, with extra time and resources dedicated to mathematics, science, and the needs of English learners.

Central to our professional learning in 2022-23 is our focus on improving students' ability to comprehend complex informational text through the use of close reading. Principals and their site Instructional Leadership Team (ILTs) are learning about the quality indicators of close reading and the Framework for Powerful Learning to bring professional learning around close reading and informational text back to their sites. Principals and ILT teams meet with teachers during site learning days (SLDs) once a month for a two hour session to engage in the work. Sites are also learning to engage in the Cycle of Professional Learning by training, engaging in safe practice, observing colleagues, receiving feedback, reading professional literature, looking at student work and data, and monitoring, measuring, and modifying when necessary. Through this cycle of professional learning, teachers will improve their practice and promote student comprehension of informational text.

With professional learning communities (PLCs) as a foundation, teachers continue the work of the SLD through their weekly team meetings. Teachers meet weekly, as a grade level team or within discipline areas, to analyze student data and discuss best practices to address the needs of each and every student. Through the introduction of the Cycle of Professional Learning, teachers will begin observing and providing feedback with PLC members throughout the year.

In addition to site professional learning, our Blended Professional Development program for 2022-23 offers self-selected professional development courses which are offered face-to-face and online. Each teacher in the district is responsible for at least four hours of professional learning outside of their regular work day. Regardless of the learning format, our LMSVSD educators are eager to engage in professional development, and the district is committed to supporting them with many tools, strategies, and training.

In order to customize professional learning for certificated staff, Lead Teachers were hired in specific areas (science, math, ELD, specialized academic instruction (SAI), PE, etc.) and offered a stipend to develop at least three sessions that will be offered through our Professional Blended Learning program. The Lead Teachers will contact their job alike cohort members across the district to gather information on specific training topics of interest, and either provide the training or coordinate with an outside expert to provide it.

Professional Development

Additional individual professional development opportunities offered or planned by Teachers on Special Assignment, Coordinators, Lead Teachers, social workers, and/or administrators for the 2022-23 school year include the following courses:

- Newcomer 101 (to support our newest English Learners)
- Intro to Google Classrooms
- Project Based Learning
- Math Expressions: Getting Started
- Environmental Literacy for Social Studies
- Daily 5 Routine for Running Small Group Rotation
- Amplify: Analyzing Student Work
- High Leverage ELD Strategies
- Number Talks and Dot Talks
- Supporting Diverse Learners
- Virtual Manipulatives in Math Instruction
- Minimizing Math Anxiety
- Redefining Classroom Management
- Social Emotional Learning in PE
- Informational Text in PE

As we continue to support the professional learning of our educators, the LMSVSD Staff website was developed to include pacing guides, essential standards, quick links for tutorials with Google Classroom and other Learning Management Systems, online curriculum supports, and more. The site also includes tools and information for supporting English learners and Special Education students, and providing differentiation for the content areas.

LMSVSD believes in continuous learning, and we will ensure high-quality professional learning to all of our staff throughout the entire 2022-2023 school year.
