## 2021-2022 School Accountability Report Card

(Published During the 2022-2023 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## 2022-23 School Overview

TRUST Blended Learning is an innovative and challenging Independent study program that supports the needs of every child through individualized pathways. Our unique atmosphere allows for an innovative method of instruction that matches with each child's unique interests, ability, and learning style. We provide parents a way to educate their children at home instead of sending them to a traditional school.

We provide parents with at-home educational options:

**Blended Learning Pathway:**

This pathway is for parents/guardians who would like to guide their child's learning, but who do not want to be the primary educator at home. This pathway is a blend of synchronous learning and in-person learning from a certificated teacher, and guided instruction from a parent/guardian at home. Curriculum includes traditional standards based core curriculum, online programs, and supplemental materials. This pathway requires children to attend in person instruction two days a week and synchronous learning three days a week at home with parental support and guidance.

**Home Independent Study Pathway:**

This pathway is for parents/guardians who would like to be the primary educator of their child. The parent/guardian picks up curriculum and materials, scope and sequence, and weekly work completion calendar at least once a month.

Parents/guardians will receive weekly direction over Zoom or in person from a certificated teacher. Instruction includes traditional paper/pencil activities, online programs, and daily synchronous school connectedness lessons. Children begin each morning with a short synchronous lesson on Zoom with other children in order to increase school connectedness before working on the academic program at home.

Children in both of our pathways are expected to meet the expectations for learning and work completion that occur at a traditional in-person school. Students in our pathways also have opportunities to participate in educational excursions, online or in-person tutoring, enrichment, and school wide events.

**Mission Statement:**

Our mission is to educate all children through an innovative and challenging Independent Study program, enabling each child to reach and expand their potential while preparing them to become productive, responsible, ethical, creative, and compassionate members of society.

## 2022-23 School Overview

Our Core Values Include:

Promoting innovative and creative thinkers for the 21st century

Providing a quality and rigorous education for all students

Fostering caring and empathetic relationships with students, families, and the community

Understanding that every student is a scholar who uses respect, honesty, and understanding to build community

With a focus on personalization, achievement, and discovery we put students in an environment where they can learn, be successful, and where they can naturally discover their true passions.

### A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

## School Facility Conditions and Planned Improvements

Principal, custodians, and maintenance department work collaboratively to continuously inspect the facilities on a regular basis. Work orders are generated when needed, and maintenance is performed as required. An annual FIT report is conducted each year to ensure that the facilities are safe and conducive to learning. Schools also receive annual visits from the fire marshall. Fire extinguishers are inspected annually as well.

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**  
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

LMSV administered the i-Ready diagnostic assessment to its students in lieu of the statewide summative assessment in 2021.

#### Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
<b>English Language Arts/Literacy</b> (grades 3-8 and 11)	N/A	43	N/A	48	N/A	47
<b>Mathematics</b> (grades 3-8 and 11)	N/A	16	N/A	35	N/A	33

## 2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

## 2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

## 2022-23 Opportunities for Parental Involvement

At TRUST Blended Learning we believe that a child's education is made successful by parent involvement. We know that with parent involvement children can reach higher academic levels, attend school regularly, and have better social skills. In order to support our parents, we offer parenting workshops and help families find needed support programs or government assistance programs, as appropriate. We encourage parents and family members to model pro-education behavior, such as reading to and in front of their children.

We keep parents informed by making it easy for them to ask questions or express concerns. We hold parent-teacher conferences, send student work home with explanations of their grades, send out regular emails describing the work they are doing in the classroom, and make ourselves available to take parent calls and parent-teacher meetings.

To help parents provide at-home learning, we keep them informed about homework assignments and projects. We provide resources designed to help them understand the subject matter. Additionally, we send home lists of voluntary reading and other activities that can help parents ensure their children have ways to learn outside of the classroom.

We value the partnership between parents and educators. We encourage parents to join the School Site Council and English Learner Advisory Committee. We also encourage our parents to participate in support groups focused on education. We strive to help parents support their child's education and assist them in providing a healthy home environment in order for each child to be successful.

#### State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

## Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

## 2022-23 School Safety Plan

In La Mesa-Spring Valley School district, each site creates a Comprehensive School Safety Plan (CSSP). Site plans outline systems, programs, and practices in place to ensure a safe school environment including, but not limited to, child abuse reporting, disaster preparedness, campus access, and drug and alcohol education and emergency response. These plans are approved by the school site council (in December) and later by the La Mesa-Spring Valley School Board of Education (in February).

Each school site has one teacher appointed as the school's Safety Lead. This person attends monthly safety meetings and professional developments with the district's Chief Safety Officer and implements safety initiatives at their sites, in collaboration with site administration. The Safety Lead supports the creation of the site's CSSP and is a member of the larger safety team on each site. The safety team is responsible for periodically conducting hazard and vulnerability assessments of the campus, setting goals and action steps relative to the district Safety Standards, engaging in a Safety Standards Self Assessment, and creating school-wide safety plans and protocols that are detailed in the CSSP.

Lastly, La Mesa-Spring Valley continues to focus on the safety of staff and students in our district through facilities and infrastructure initiatives. Currently, the district is beginning the implementation of the CrisisGo Emergency Response Platform to strengthen communication and consistency in the event of an emergency. Increased measures for campus safety are also being implemented as part of a series of Facilities Master Plan improvements including but not limited to extensions of current fencing, securing locked gates, implementing single points of entry to campus, and initiating remote entry controlled by office staff at each school site in the district. Such added measures are added to the CSSP, where relevant.

## Professional Development

Professional learning in La Mesa-Spring Valley School District (LMSVSD) continues evolving to cultivate capacity and efficacy of teachers so they can ensure high levels of learning for each and every student. In recent years, professional learning has emphasized developing a common language around high quality teaching and learning and building collaborative cultures that promote high levels of learning for all students through professional learning communities. This work has included a deeper dive into content standards through the selection of essential standards and discussions around mastery and effective assessment, social-emotional learning and having an equity lens in all of our work. In response to student performance data and classroom observation, current professional learning focuses on aligning instruction to standards and student experience, with extra time and resources dedicated to mathematics, science, and the needs of English learners.

Central to our professional learning in 2022-23 is our focus on improving students' ability to comprehend complex informational text through the use of close reading. Principals and their site Instructional Leadership Team (ILTs) are learning about the quality indicators of close reading and the Framework for Powerful Learning to bring professional learning around close reading and informational text back to their sites. Principals and ILT teams meet with teachers during site learning days (SLDs) once a month for a two hour session to engage in the work. Sites are also learning to engage in the Cycle of Professional Learning by training, engaging in safe practice, observing colleagues, receiving feedback, reading professional literature, looking at student work and data, and monitoring, measuring, and modifying when necessary. Through this cycle of professional learning, teachers will improve their practice and promote student comprehension of informational text.

With professional learning communities (PLCs) as a foundation, teachers continue the work of the SLD through their weekly team meetings. Teachers meet weekly, as a grade level team or within discipline areas, to analyze student data and discuss best practices to address the needs of each and every student. Through the introduction of the Cycle of Professional Learning, teachers will begin observing and providing feedback with PLC members throughout the year.

In addition to site professional learning, our Blended Professional Development program for 2022-23 offers self-selected professional development courses which are offered face-to-face and online. Each teacher in the district is responsible for at least four hours of professional learning outside of their regular work day. Regardless of the learning format, our LMSVSD educators are eager to engage in professional development, and the district is committed to supporting them with many tools, strategies, and training.

In order to customize professional learning for certificated staff, Lead Teachers were hired in specific areas (science, math, ELD, specialized academic instruction (SAI), PE, etc.) and offered a stipend to develop at least three sessions that will be offered through our Professional Blended Learning program. The Lead Teachers will contact their job alike cohort members across the district to gather information on specific training topics of interest, and either provide the training or coordinate with an outside expert to provide it.

Additional individual professional development opportunities offered or planned by Teachers on Special Assignment, Coordinators, Lead Teachers, social workers, and/or administrators for the 2022-23 school year include the following courses:

- Newcomer 101 (to support our newest English Learners)
- Intro to Google Classrooms
- Project Based Learning
- Math Expressions: Getting Started
- Environmental Literacy for Social Studies
- Daily 5 Routine for Running Small Group Rotation
- Amplify: Analyzing Student Work
- High Leverage ELD Strategies
- Number Talks and Dot Talks
- Supporting Diverse Learners
- Virtual Manipulatives in Math Instruction
- Minimizing Math Anxiety
- Redefining Classroom Management
- Social Emotional Learning in PE
- Informational Text in PE

## Professional Development

As we continue to support the professional learning of our educators, the LMSVSD Staff website was developed to include pacing guides, essential standards, quick links for tutorials with Google Classroom and other Learning Management Systems, online curriculum supports, and more. The site also includes tools and information for supporting English learners and Special Education students, and providing differentiation for the content areas.

LMSVSD believes in continuous learning, and we will ensure high-quality professional learning to all of our staff throughout the entire 2022-2023 school year.

This table displays the number of school days dedicated to staff development and continuous improvement.
