## 2022-2023 School Accountability Report Card (Published During the 2023-2024 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## 2023-24 School Description and Mission Statement

Parkway Sports and Health Science Academy is a comprehensive middle school in La Mesa for grades 6, 7, and 8. Our 690 students enjoy an amazing learning and community environment. We have a strong tradition of academic excellence coupled with a school-wide focus on social-emotional wellness, kindness to others and career/college readiness.

During the transition from Parkway Middle School to Parkway Academy we developed a mission statement that reads, "Parkway Sports and Health Science Academy is a school community focused on creating strong academic identities, student wellness, and a culture of thinking and deep learning." We also crafted an instructional focus statement that reads, "We will increase the frequency and depth of the interactions students are having with informative text to improve reading comprehension."

Starting in 2022-2023, Parkway Middle School transformed into Parkway Sports & Health Science Academy. Parkway Academy continues to offer academically rigorous, traditional curriculum in Language Arts, Math, History, Science and PE. Yet, Parkway Academy added an expansive selection of new elective courses focused on health, science and sports, and each student will get two elective classes.

These changes are related to the connection Parkway is building with the Grossmont Union High School District and the robust Career and Technical Education Pathways that are offered at the various high schools in our community. Parkway has created direct links to innovative courses offered at the high schools and allows Parkway students to explore the diversity of future opportunities at colleges and in careers to engage them in deeper learning and the development of relevant skills.

Parkway Academy utilizes Restorative Practices to teach students how to make amends and restore relationships with their peers and teachers. Teachers and staff are also exploring Multi-Tiered Systems of Support and Positive Behavior Intervention Support to create appropriate systems and structures of support. Parkway teachers work in Professional Learning Communities (PLCs) in subject areas: Language Arts, Math, History, Science, Special Education, Physical Education, and Unified Arts. Together, each PLC provides many activities to promote the academic and social/emotional growth of all students. Each department PLC works together to ensure student success and offers intervention and enrichment opportunities. Additionally, each department PLC team meets weekly to discuss students' academic successes and needs, review assessment data, and share best practices for daily instruction.

## 2023-24 School Description and Mission Statement

The Parkway Academy Counselor and Social Worker provides additional class lessons in social skills, study skills, goal setting, and organization. Students enjoy participating in CJSF, a community service club, and learn lifelong skills. Parkway also has a group of students known as the Wellness Warriors who help promote mental health and emotional stability school wide.

## A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

### 2020-21 Teacher Preparation and Placement

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

## Teachers Without Credentials and Misassignments (considered “ineffective” under ESSA)

Authorization/Assignment	2020-21	2021-22

Misassignments	0.70	0.50
Vacant Positions	0.00	0.00
<b>Total Teachers Without Credentials and Misassignments</b>	<b>0.70</b>	<b>0.50</b>

The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

## Credentialed Teachers Assigned Out-of-Field (considered “out-of-field” under ESSA)

Indicator	2020-21	2021-22
Credentialed Teachers Authorized on a Permit or Waiver	0.00	0.00
Local Assignment Options	0.00	0.00
<b>Total Out-of-Field Teachers</b>	<b>0.00</b>	<b>0.00</b>

The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

## Class Assignments

Indicator	2020-21	2021-22
<b>Misassignments for English Learners</b> (a percentage of all the classes with English learners taught by teachers that are misassigned)	2.7	3.4
<b>No credential, permit or authorization to teach</b> (a percentage of all the classes taught by teachers with no record of an authorization to teach)	0	0

The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

## School Facility Conditions and Planned Improvements

Principal, custodians, and the maintenance department work collaboratively to continuously inspect the facilities on a regular basis. Work orders are generated when needed, and maintenance is performed as required. An annual FIT report is conducted each year to ensure that the facilities are safe and conducive to learning. Schools also receive annual visits from the fire marshall. Fire extinguishers and alarms are inspected annually as well.

**Year and month of the most recent FIT report** October 2023

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

#### College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

### Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23
<b>English Language Arts/Literacy</b> (grades 3-8 and 11)	57	46	48	47	47	46
<b>Mathematics</b> (grades 3-8 and 11)	30	30	35	36	33	34

## 2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2022-23 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

## CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. ## B. Pupil Outcomes

### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

#### 2022-23 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT during 2021-22 and 2022-23 school years, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

#### 2023-24 Opportunities for Parental Involvement

At Parkway Sports and Health Science Academy, parents are our partners in the education of students. Communication is paramount to building strong relationships with the community, and there are a variety of ways we promote this. Parents may communicate with teachers daily through email or Jupiter Grades. Every teacher has voicemail and email. Blackboard ConnectEd "all call" phone calls, newsletters, and report cards are other vehicles to support strong communication between home and school. Our weekly news broadcast, website, monthly calendar, and information hotline keep everyone current on the events and daily activities at school. We also have Twitter, Instagram, and Facebook for updates on activities.

Parents are welcome in the classrooms, as office helpers, and at all celebrations. There are many opportunities through parent/teacher conferences, Back-To-School Night, and Open House when parents are involved on campus. Parent education nights often include the whole family.

Parkway PTSA is active in supporting programs and clubs by providing resources and materials. Our School Site Council (SSC) is constructed of elected parents, students and staff representatives who meet throughout the year to oversee the school improvement program. Our English Learner Advisory Committee (ELAC), made up of parents and Parkway's principal, work together to ensure there are opportunities for parents and students who are second language learners. ELAC gives input on instructional practices and budget expenditures to ensure English learner students are supported in learning English in all of their classes.

Campus Tours are provided and the principal believes in an "open-door" policy. We want parents to know their children are in good hands. Parents interested in volunteer opportunities can contact our School Office Manager, Julianne Pantehis, at (619) 668-5810 x1197.

## 2023-24 School Safety Plan

In La Mesa-Spring Valley School district, each site creates a Comprehensive School Safety Plan (CSSP). CSSPs outline systems, programs, and practices that are in place to ensure a safe school environment. This includes, but is not limited to, child abuse reporting, disaster preparedness, campus access, and drug and alcohol education and emergency response. These plans are approved by the school site council (December) and later by the La Mesa-Spring Valley School Board of Education (February).

Each school site has one teacher appointed as the school's Safety Lead. This person attends monthly safety meetings and professional development with the Director of Student Supports. The Safety Lead supports the creation of the site's CSSP, collaborates with the site administration to implement safety initiatives, and is a member of the larger onsite safety team. The safety team is responsible for periodically conducting hazard and vulnerability assessments of the campus, setting goals and action steps relative to the district Safety Standards, engaging in a Safety Standards Self Assessment, and creating school-wide safety plans and protocols that are detailed in the CSSP.

Lastly, La Mesa-Spring Valley continues to focus on the safety of staff and students through facilities and infrastructure initiatives. Increased measures for campus safety are being implemented as part of a series of Facilities Master Plan improvements. These include, but are not limited to, extensions of current fencing, secured and locked gates, single points of entry to campus, and remote entry controlled by office staff at each school site in the district. Such measures are added to the CSSP, where relevant.

## 2020-21 Secondary Average Class Size and Class Size Distribution

This table displays the 2020-21 average class size and class size distribution. The columns titled “Number of Classes” indicates how many classes fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Subject	Average Class Size	Number of Classes with 1-22 Students	Number of Classes with 23-32 Students	Number of Classes with 33+ Students
English Language Arts	24	11	18	4
Mathematics	29	6	10	10

## Professional Development

Professional learning in La Mesa-Spring Valley School District (LMSVSD) is conducted for the purpose of cultivating the capacity and efficacy of teachers. In recent years, professional learning has focused on developing a common language around high quality teaching and learning and working within collaborative professional learning communities to promote high levels of learning for all students. This work has included a deeper dive into content standards, discussions around mastery and effective assessment, social-emotional learning and applying an equity lens to all of our work. In response to student performance data and classroom observation, current professional learning focuses on increasing student literacy. Through this work, teachers gain a common understanding of the components included in an effective literacy “block,” at each grade level, build clarity around best practices in a standards driven program (including the ELD standards) and review the gradual release of responsibility model.

Central to professional learning in 2023-2024 is our continued application of the Framework for Powerful Learning. The framework includes our “targeted instructional area” for the year which is to improve students’ ability to comprehend complex informational text. The framework also includes a Cycle of Professional Learning through which school sites expand their understanding and application of powerful teaching practices that address the targeted instructional area. In 2022-2023 we focused on the powerful practice of close reading and responding to text dependent questions. In 2023-2024, the powerful practices will build upon this work and focus on collaborative conversations around text dependent questions for the purpose of generating a short written constructed response.

Principals and their site Instructional Leadership Teams (ILTs) learn about the powerful practices through leadership meetings, and then provide training to site staff during Site Learning Days, staff meetings, and individual coaching sessions. With professional learning communities (PLCs) as a foundation, teachers follow through on the work initiated at Site Learning Days through their weekly meetings. Teachers meet as a grade level team or within discipline areas to discuss the powerful practices, plan instruction, analyze student data and address the needs of each and every student. Through the introduction of the Cycle of Professional Learning, teachers will engage in safe practice, read professional literature, observe colleagues, receive feedback and monitor, measure and modify their practice as needed.

Outside of site professional learning, we have a Blended Professional Learning program that has been modified for 2023-24. In years past every certificated staff member engaged in four hours of self-selected professional development. This year, all certificated staff will participate in a two hour professional learning course on providing high quality literacy instruction, tailored to meet the needs of their grade level and/or content area. This professional learning is delivered through Content Lead Teachers who receive a stipend, and were hired for their expertise in literacy instruction. Content was developed in partnership with the Learning Support Department, Instructional Data Support (IDS) Teachers and Content Lead Teachers.

In addition to the literacy course, certificated staff will self-select two hours of professional learning from a menu of courses offered by Content Lead Teachers, Teachers on Special Assignment, Coordinators, social workers, and outside organizations.

## Professional Development

School principals also have an opportunity to customize professional learning for their staff that counts towards the two hours. These in-person learning opportunities will focus on a variety of instructional practices and topics, including follow up from the literacy training, social emotional learning, math, science, history, visual and performing arts, physical education, intervention curriculum and strategies, and more.

To provide ongoing support for our educators, the LMSVSD Staff website includes pacing guides, essential standards, quick links for tutorials with Google Classroom and other Learning Management Systems, support for online curriculum, assessment, social emotional learning, and more. The site also includes tools and information for supporting English learners and Special Education students, and providing differentiation for the content areas.

At Parkway, the English Language Arts Department is participating in 10 hours of professional development from the San Diego Area Writing Project focused on improving instruction in the area of writing. 6 teachers (4 science, 1 math, and 2 elective) continue to be a part of the High Tech High Graduate School Project CARE Network. Parkway is in the 4th year of a 5 year commitment with HTH Grad School to learn and then implement actions meant to create a school culture that is welcoming and focused on student wellness, but also achieving at high levels. The school principal and 2 history teachers will also be attending the Progressive Education Summit in Baltimore, MD this year. There is also work being done with the Parkway Math Department and consultants from UCSD to better understand the new CA Math Framework. 12 teachers have also committed to 2 hrs. of PD and a book study reading and examining the text "Making Thinking Visible" by Dr. Ron Ritchhart.

LMSVSD believes in continuous learning, and we will ensure high-quality professional learning to all of our staff throughout the entire 2023-34 school year.
