## 2023-2024 School Accountability Report Card

(Published During the 2024-2025 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

<b>Admission Requirements for the University of California (UC)</b>	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <a href="https://admission.universityofcalifornia.edu/">https://admission.universityofcalifornia.edu/</a> .
<b>Admission Requirements for the California State University (CSU)</b>	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <a href="https://www2.calstate.edu/">https://www2.calstate.edu/</a> .

## 2024-25 School Description and Mission Statement

Maryland Avenue Elementary is a 2020 California Distinguished School awardee. This recognition is reflective of excellent teaching, learning, collaboration, and a highly successful school climate. Maryland Avenue is a wonderful learning community with a tradition of excellence where children are the most important people. Parents, families, staff, and community join in partnership and work in harmony to ensure that all children succeed. We partner in educating, nurturing, and supporting our students. We wholeheartedly believe that relationships precede learning; the connection between teachers/staff and students/families is the foundation of student well-being and student achievement. With this foundation, the Maryland Avenue School community works together to create a caring and supportive environment that challenges students to achieve academic

success and become confident, productive citizens.

We are committed to providing a challenging and enriching education that assists students in developing the skills necessary to read well, think clearly, communicate effectively, compute accurately, value and appreciate diversity, and work to find creative solutions to complex challenges. 21 classroom teachers, together with Specialized Academic Instructors, Speech-Language Pathologists and a reading specialist, create successful learning experiences for each of the 500 children within our learning community of preschool through fifth grade. Our comprehensive academic program, designed to meet diverse instructional needs, is developed by teams of grade-level teachers to maximize student achievement and is aligned with District Performance and California State Standards. Professionals within our school work collaboratively to ensure individual student needs are met, students are supported with their learning, and experience success at school. Ongoing analysis of student performance data allows staff to look critically at programs and practices and adjust instruction to maximize student growth and mastery of standards.

Student support at Maryland Avenue includes differentiated instruction for PACE (Programs for Acceleration, Challenge, and Enrichment), EL (English Learners), and at-risk students. Systematic Instruction in Phonological Awareness, Phonics, and Sight Words (SIPPS), intervention groups, Social-Emotional Learning (SEL) groups and enrichment activities ensure that the needs of every child are met. In addition, we provide WIN (What I Need) time to support students of all ability levels as well as reading intervention and English Language Development (ELD) intervention. Ongoing teacher coaching and professional growth opportunities keep educators current in their knowledge and application of best practices. Through meetings of grade-level teams, staff, and School Site Council (SSC), recommendations and decisions are made to support students in their pursuit of academic excellence.

The combined efforts of highly qualified school staff, actively involved parents, and a supportive community ensure children at Maryland Avenue experience success each and every day. Maryland Avenue School's LIONS program supports our students in becoming productive, caring citizens by working to build the self-confidence of students and increase their abilities to solve interpersonal problems peacefully. Our fee-based preschool program, Smart Steps, begins the child's educational experience and sets the stage for future academic success. A variety of after school enrichment classes provide additional opportunities for students to advance their skills and develop their interests. Through our comprehensive instructional programs and our commitment to every child learning every day, students are supported in their path to success.

## School Facility Conditions and Planned Improvements

Principal, custodians, and maintenance department work collaboratively to continuously inspect the facilities on a regular basis. Work orders are generated when needed, and maintenance is performed as required. An annual FIT report is conducted each year to ensure that the facilities are safe and conducive to learning. Schools also receive annual visits from the Fire Marshall. Fire extinguishers and fire alarm systems are inspected annually as well.

## B. Pupil Outcomes

## State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

### College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2022-23	School 2023-24	District 2022-23	District 2023-24	State 2022-23	State 2023-24

<b>Mathematics</b> (grades 3-8 and 11)	42	46	36	37	34	35

## 2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2023-24 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

## CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## B. Pupil Outcomes

### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

#### 2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Grade Level	Component 1: Aerobic Capacity	Component 2: Abdominal Strength and Endurance	Component 3: Trunk Extensor and Strength and Flexibility	Component 4: Upper Body Strength and Endurance	Component 5: Flexibility
Grade 5	94.23%	94.23%	94.23%	94.23%	94.23%

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

#### 2024-25 Opportunities for Parental Involvement

Family and community engagement continues to be an area of importance at Maryland Avenue. Regular communication between parents, teachers, and administration is an expectation, as this partnership is the key to our students' success. In May 2024, we surveyed parents to determine how they felt about Maryland Avenue. 92% of parents report that they have a strong sense of belonging in our school community. 95% of parents report that they strongly agree that they are welcome to participate at school. 98% of families report that school staff treat them with respect. 97% of parents report that their child feels welcome at school and that school staff are helpful and supportive. It is our goal to continue building upon these strong partnerships in an effort to support the students of Maryland Avenue.

Parents have multiple opportunities to be a part of the school decision making process through School Site Council and ELAC committees. In addition to school decision making opportunities, Maryland Avenue will continue to provide families with educational opportunities that support family engagement in the school community and increase family capacity to support student academic, social-emotional, and behavioral development. At the end of last year, we conducted a needs survey to determine which family education events would most support our community; families reported a need for social-emotional education, strategies for behavior management, and overall strategies to support student achievement in school. Once each month, families are invited to a parent education event focused on one of these areas.

Families are able to learn more about Maryland Avenue's organized opportunities for family involvement by contacting our Office Manager, Nina White, at (619) 668-5744.

## 2024-25 School Safety Plan

In La Mesa-Spring Valley School districts, each site creates a Comprehensive School Safety Plan (CSSP). Site plans outline systems, programs, and practices in place to ensure a safe school environment including, but not limited to, child abuse reporting, disaster preparedness, campus access, and drug and alcohol education and emergency response. These plans are approved by the school site council (in December) and later by the La Mesa-Spring Valley School Board of Education (in February).

Each school site has one teacher appointed as the school's Safety Lead. This person attends bi-monthly safety meetings and

professional developments with the district's Chief Safety Officer and implements safety initiatives at their sites, in collaboration with site administration. The Safety Lead supports the creation of the site's CSSP and is a member of the larger safety team on each site. The safety team is responsible for periodically conducting hazard and vulnerability assessments of the campus, setting goals and action steps relative to the district Safety Standards, engaging in a Safety Standards Self Assessment, and creating school-wide safety plans and protocols that are detailed in the CSSP.

Lastly, La Mesa-Spring Valley continues to focus on the safety of staff and students in our district through facilities and infrastructure initiatives. Increased measures for campus safety are also being implemented as part of a series of Facilities Master Plan improvements including but not limited to extensions of current fencing, securing locked gates, implementing single points of entry to campus, and initiating remote entry controlled by office staff at each school site in the district. Such added measures are added to the CSSP, where relevant.

## Professional Development

Professional learning in La Mesa-Spring Valley School District (LMSVSD) continues evolving to cultivate the capacity and efficacy of teachers so they can ensure high levels of learning for each and every student. In recent years, professional learning has emphasized developing a common language around high-quality teaching and learning and building collaborative cultures that promote high levels of learning for all students through professional learning communities. In response to student performance data and classroom observation, current professional learning focuses on aligning instruction to standards and student experience, with extra time and resources dedicated to literacy and the needs of English learners.

Central to our professional learning in 2023-24 was our focus on improving students' ability to comprehend complex informational text through the use of powerful practices: collaborative conversations, short constructed responses, and close reading. Principals and their site Instructional Leadership Team (ILTs) continued their work with the quality indicators and the Framework for Powerful Learning to bring professional learning around the powerful practices back to their sites. Principals and ILT teams met monthly with teachers for a two-hour Site Learning Day (SLD) session to engage in this work. Sites also learned to apply the Cycle of Professional Learning, which includes training, safe practice, observing colleagues, receiving feedback, reading professional literature, looking at student work and data, and monitoring, measuring, and modifying when necessary. Through this cycle of professional learning, teachers refine their approach, promoting stronger student comprehension of informational text.

Building on the foundation of professional learning communities (PLCs), teachers extend their SLD work through weekly team meetings. These sessions, either by grade level or within discipline areas, focus on analyzing student data and sharing strategies to support every student's learning needs. By continually engaging in the Cycle of Professional Learning, teachers observe one another and provide ongoing feedback within PLCs throughout the year.

Alongside site-based professional learning, our 2023-24 Blended Professional Development program offered a mix of required and self-selected courses. Each teacher is responsible for completing at least four hours of professional development outside their regular workday. This included a two-hour required session focused on literacy and an additional two hours of self-selected courses from a variety of offerings. To further personalize professional learning, Lead Teachers were chosen to present literacy-focused sessions, ensuring each teacher receives a literacy course customized for their grade level or subject area. LMSVSD educators are enthusiastic about growing their skills, and the district is committed to supporting them with valuable tools, strategies, and training.

Additional individual professional development opportunities will be planned and offered by Teachers on Special Assignment, Coordinators, Lead Teachers, social workers, and/or administrators for the 2023-34 school year. Some examples of course offerings included:

- Evidence-Based Practices
- Collaborative Conversations about the Mathematical Practices
- CPM Math
