## 2024-2025 School Accountability Report Card

(Published During the 2025-2026 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## 2025-26 School Description and Mission Statement

Loma Elementary is a school of 345 students nestled high above Monte Vista High School. The school has a strong sense of community, where the principal, teachers, and staff work closely to know each student personally. The campus is safe, secure, and welcoming throughout the day, providing an ideal environment for students to learn and thrive. At Loma Community, we are dedicated to creating a welcoming and inclusive environment where respect, ownership, acceptance, and responsibility guide everything we do. This mission forms the foundation of our academic programs, relationships, and school-wide initiatives. As a Community School, Loma partners closely with families, staff, and local organizations to meet the academic, social, and emotional needs of all students. Strong community connections and family engagement ensure that every child feels supported, connected, and empowered both inside and outside the classroom.

Teachers at Loma collaborate across grade levels to examine data and analyze common formative assessments to design both intervention and enrichment opportunities for students. Flexible seating and collaborative learning spaces accommodate diverse learning styles and encourage students to work together as a community. Loma provides high-quality, Common Core-based instruction using Wonders, iReady Reading and Math, Math Expressions, and Amplify Science. Reading groups target each student at their level, and interventions and enrichment are tailored to individual needs. Instruction is purposeful and data-driven, with strategies including close reading to analyze text, collaborative conversations to deepen understanding, and intentional vocabulary instruction to strengthen language development. At Loma, we emphasize a growth mindset, encouraging students to take risks, persevere, and develop critical thinking skills.

To support social-emotional growth, a Behavior Intervention Technician provides targeted support for students in developing positive behaviors and social skills, working closely with teachers and staff to implement strategies, monitor progress, and provide individualized support. Loma is committed to supporting the whole student, with Positive Behavioral Interventions and Supports (PBIS) guiding our school-wide approach. Our school-based social worker leads engaging lessons on friendship, self-esteem, and anti-bullying, while restorative practices guide our interactions. Building strong relationships is at the heart of everything we do.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

### School Facility Conditions and Planned Improvements

Principal, custodians, and maintenance department work collaboratively to continuously inspect the facilities on a regular basis. Work orders are generated when needed, and maintenance is performed as required. An annual FIT report is conducted each year to ensure that the facilities are safe and conducive to learning. Schools also receive annual visits from the Fire Marshall. Fire extinguishers and fire alarm systems are inspected annually as well.

<b>Year and month of the most recent FIT report</b>	August 2025

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
- 2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
- 3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

Subject	School 2023-24	School 2024-25	District 2023-24	District 2024-25	State 2023-24	State 2024-25

2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

### 2024-25 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2024-25 California Physical Fitness Test Participation Rates

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2025-26 Opportunities for Parental Involvement

Research shows a strong correlation between parent involvement and effective schools. At Loma Elementary, we encourage parents to become actively engaged in our school and leverage our status as a Community School to provide multiple avenues for meaningful participation. We use ParentSquare to send a weekly newsletter to all parents, keeping families informed about school events, parent opportunities, and general updates.

Parent participation is one of the best ways to support your child’s success. Key committees where parents can be involved include:

ELAC – English Language Acquisition Committee: Provides input into the development of the Single Plan for Student Achievement as it relates to meeting the educational needs of English Learners.

PTA – Parent-Teacher Association: Promotes student achievement, parent involvement, and supports teachers and staff.

SSC – School Site Council: Develops, implements, monitors, and evaluates the Single Plan for Student Achievement in accordance with Federal and State laws and District policy.

Safety Committee: Composed of staff, parents, and law enforcement, this committee provides guidance for the Safe Schools Plan and reviews and updates goals annually.

Through these opportunities and our Community Schools approach, parents are valued partners in supporting student learning and schoolwide success. For more information on getting involved at Loma Elementary, contact the office at (619) 668-5862.

## 2025-26 School Safety Plan

Each school site has one teacher appointed as the school's Safety Lead. This person attends bi-monthly safety meetings and professional developments with the district's Assistant Superintendent, Business Services and implements safety initiatives at their sites, in collaboration with site administration. The Safety Lead supports the creation of the site's CSSP and is a member of the larger safety team on each site. The safety team is responsible for periodically conducting hazard and vulnerability assessments of the campus, setting goals and action steps relative to the district Safety Standards, engaging in a Safety Standards Self Assessment, and creating school-wide safety plans and protocols that are detailed in the CSSP.

Lastly, La Mesa-Spring Valley continues to focus on the safety of staff and students in our district through facilities and infrastructure initiatives. Increased measures for campus safety have been implemented as part of a series of Facilities Master Plan improvements including but not limited to extensions of current fencing, securing locked gates, implementing single points of entry to campus, and initiating remote entry controlled by office staff at each school site in the district. Such added measures are added to the CSSP, where relevant.

Professional Development

La Mesa-Spring Valley School District (LMSVSD) provides ongoing professional learning to strengthen teacher capacity and ensure high levels of learning for all students. Recent efforts have focused on building collaborative cultures through Professional Learning Communities (PLCs), aligning instruction to standards, and addressing the needs of Multilingual English learners with an emphasis on literacy. In 2024–25, professional learning highlighted practices to improve students’ comprehension of informational text, including collaborative conversations, short constructed responses, and close reading. All teachers also engaged in districtwide training on California’s new Mathematics Framework to ensure high-quality, standards-aligned math instruction across all grade levels. Instructional Leadership Teams supported principals in bringing these priorities to their sites through monthly Site Learning Day sessions, where teachers engaged in training, collaboration, and reflection on student data.

Professional learning extends beyond these sessions through weekly PLC meetings, where teachers analyze student work, share strategies, and provide feedback to colleagues. By engaging in this continuous cycle of professional learning, teachers refine their instructional practices and strengthen student outcomes in both literacy and mathematics.

This table displays the number of school days dedicated to staff development and continuous improvement.
