2024-2025 School Accountability Report Card

(Published During the 2025-2026 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2025-26 School Description and Mission Statement

Welcome to Murdock Elementary School! We are a community of skilled teachers and dedicated parents who work together to prepare students academically and socially to be productive and successful members of society. We encourage parents to be involved to help reinforce the learning and development of happy and healthy learners. Our dedication to thoughtful teaching and powerful learning, guides us to help students become productive citizens. Our primary academic focus is supporting all students to meet their goals in reading, writing, science and mathematics as well as integrating technology. Learning activities are also integrated in history/social science, physical education, and the arts. The staff provides a balanced and challenging academic program to help all students acquire the skills they need for a successful future.

Our goals as a school focus on academic excellence, student wellness, and parent and community engagement. As a school committed to high levels of learning and achievement, we remain focused on continuous improvement. District and state assessments help us identify areas of need in English Language Arts and Math. Grade level Professional Learning Communities (PLCs) collaborate to analyze data and plan next steps for instruction based on student performance. We continuously strive to ensure the best through our weekly team discussions and bimonthly staff meetings. The Instructional Leadership Team, Intervention Team and principal meet regularly to examine student achievement toward mastery of essential standards and to plan enrichment and interventions in the coming weeks.

Murdock is also proud to be able to incorporate an art program for all students with the support of PTA. Art Beat is a unique program whose curriculum consists of drawing skills, watercolor art, sculpture, and painting. The basis of the curriculum is introducing children to a variety of art forms to allow them to express their unique artistic perspectives, while gaining more artistic and technical knowledge.

Our parent and community engagement continues to be an area of importance and strength at our school. Regular communication between parents, teachers and administration is an expectation, as this partnership is the key to our students' success. We look forward to our continued partnership this school year.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Note: The data in this table is based on full-time equivalent (FTE) status. One FTE equals one staff member working full-time; one FTE could also represent two staff members who each work 50 percent of full-time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

Principal, custodians, and maintenance department work collaboratively to continuously inspect the facilities on a regular basis. Work orders are generated when needed, and maintenance is performed as required. An annual FIT report is conducted each year to ensure that the facilities are safe and conducive to learning. Schools also receive annual visits from the Fire Marshall. Fire extinguishers and fire alarm systems are inspected annually as well.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
- 2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
- 3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

Subject	School 2023-24	School 2024-25	District 2023-24	District 2024-25	State 2023-24	State 2024-25

2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2024-25 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2024-25 California Physical Fitness Test Participation Rates

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2025-26 Opportunities for Parental Involvement

Murdock succeeds when parents are our partners in their child’s education. Murdock is well known for parent involvement. Parents have multiple opportunities to be part of the school decision making process through the School Site Council (SSC) and English Learner Advisory Committee (ELAC). SSC is an elected group of parents and staff who meet throughout the year to study the effectiveness of curriculum and instruction and make recommendations for allocating site funds. ELAC is a group of parents who meet throughout the school year to receive information on special programs and services for English learners.

We also encourage parents to volunteer in their student’s classroom, on PTA, Garden Club, as well as Mustang Run Club. Parents also assist with educational study trips throughout the school year.

Working together creates an atmosphere of community.

Our PTA board meets monthly and provides support for school programs and activities including assemblies, fundraisers, family nights, field trips, book fairs, art, and evening activities.

For more information on school activities, contact the principal, at (619) 668-5775. For more information about our PTA and how to get involved, please visit: <https://www.murdockpta.org/>

2025-26 School Safety Plan

Each school site has one teacher appointed as the school’s Safety Lead. This person attends bi-monthly safety meetings and professional developments with the district’s Assistant Superintendent, Business Services and implements safety initiatives at their sites, in collaboration with site administration. The Safety Lead supports the creation of the site's CSSP and is a member of the larger safety team on each site. The safety team is responsible for periodically conducting hazard and vulnerability assessments of the campus, setting goals and action steps relative to the district Safety Standards, engaging in a Safety Standards Self Assessment, and creating school-wide safety plans and protocols that are detailed in the CSSP.

Lastly, La Mesa-Spring Valley continues to focus on the safety of staff and students in our district through facilities and infrastructure initiatives. Increased measures for campus safety have been implemented as part of a series of Facilities Master Plan improvements including but not limited to extensions of current fencing, securing locked gates, implementing single points of entry to campus, and initiating remote entry controlled by office staff at each school site in the district. Such added measures are added to the CSSP, where relevant.

Professional Development

La Mesa-Spring Valley School District (LMSVSD) provides ongoing professional learning to strengthen teacher capacity and ensure high levels of learning for all students. Recent efforts have focused on building collaborative cultures through Professional Learning Communities (PLCs), aligning instruction to standards, and addressing the needs of Multilingual English learners with an emphasis on literacy. In 2024–25, professional learning highlighted practices to improve students' comprehension of informational text, including collaborative conversations, short constructed responses, and close reading. All teachers also engaged in districtwide training on California's new Mathematics Framework to ensure high-quality, standards-aligned math instruction across all grade levels. Instructional Leadership Teams supported principals in bringing these priorities to their sites through monthly Site Learning Day sessions, where teachers engaged in training, collaboration, and reflection on student data.

Professional learning extends beyond these sessions through weekly PLC meetings, where teachers analyze student work, share strategies, and provide feedback to colleagues. By engaging in this continuous cycle of professional learning, teachers refine their instructional practices and strengthen student outcomes in both literacy and mathematics.

This table displays the number of school days dedicated to staff development and continuous improvement.
