Scope of Work – Rev # 2

Backflow Prevention Device Installation, Replacement, and Certification

La Mesa Spring Valley School District

1. Project Overview

The La Mesa Spring Valley School District (“District”) is soliciting proposals from qualified contractors to provide all labor, materials, equipment, transportation, and services necessary to install new backflow prevention assemblies, perform optional removal and replacement of existing assemblies, and certify all backflow devices District wide.

The purpose of this project is to ensure compliance with applicable codes and regulations and to maintain the safety and integrity of the District’s potable water systems.

2. Project Sites

2.1 Base Bid – New Installations (42 Devices)

The Contractor shall furnish and install a total of forty-two (42) new Zurn 975XL2 backflow prevention assemblies at the following school sites:

- Rolando Elementary School
- STEAM Academy
- Maryland Avenue Elementary School
- Murray Manor Elementary School
- Northmont Elementary School
- Parkway Academy

(Note: Devices will be distributed across the listed sites as indicated in the project plans.)

2.2 Additive Alternate – Removal and Replacement (110 Devices)

An additive bid item is included for the removal of one hundred and ten (110) existing Zurn 950XL backflow devices and replacement with Zurn 975XL2 assemblies.

This work is not part of the Base Bid and will be performed only upon written authorization by the District.

The removal and replacement work will occur at the following sites:

- Avondale Elementary School (8)
- Bancroft Elementary School (5)
- Casa de Oro Elementary School (5)
- Fletcher Hills Elementary School (6)
- Highlands Elementary School (12)
- Kempton Elementary School (5)
- La Mesa Dale Elementary School (8)
- La Presa Elementary School (6)
- Lemon Avenue Elementary School (10)
- Murdock Elementary School (4)
- Rancho Elementary School (9)
- La Mesa Arts Academy (18)
- Spring Valley Academy (12)

3. Scope of Work

3.1 New Backflow Device Installation (Base Bid)

The Contractor shall:

- Furnish and install Zurn 975XL2 backflow prevention assemblies as specified in the plans and product data sheets
- Install new concrete pads for each backflow assembly
- Provide and install all required piping, fittings, valves, and appurtenances necessary for a complete and operational system
- Furnish and install protective cages/enclosures for each backflow device
- Ensure all installations are level, secure, and compliant with manufacturer recommendations and applicable codes

3.2 Removal and Replacement (Additive Alternate)

If authorized by the District, the Contractor shall:

- Remove existing Zurn 950XL backflow devices
- Furnish and install Zurn 975XL2 replacement devices
- Modify or replace piping and appurtenances as necessary to accommodate new devices
- Restore all affected areas to equal or better condition

All removed backflow devices shall:

- Remain the property of the District

- Be palletized and delivered by the Contractor to the District Operations Center:
3838 Conrad Drive, Spring Valley, CA 91977

3.3 Backflow Certification (All Devices)

The Contractor shall:

- Test and certify a total of one hundred fifty-one(151) backflow prevention assemblies District-wide
- Perform all testing using a certified backflow tester in accordance with local water authority requirements
- Provide all required documentation, test reports, and certifications to the District
- Coordinate with the applicable water authority for compliance and reporting, if required

4. Plans and Specifications

- Project plans and product data sheets have been provided and shall be strictly followed
- In the event of discrepancies, the Contractor shall notify the District for clarification prior to proceeding

5. Contractor Responsibilities

The Contractor shall:

- Provide all labor, materials, tools, equipment, transportation, and supervision necessary to complete the work
- Coordinate all work with District staff to minimize disruption to school operations
- Maintain a clean, safe, and secure work environment at all times
- Comply with all applicable federal, state, and local codes, regulations, and standards

6. Work Hours and Site Coordination

- Work shall be coordinated with the District and individual school sites
- All work shall be complete before 07.01.2026.
- Work may be required outside of regular school hours to minimize disruption to campus operations
- Contractor shall check in with the school front office upon arrival at each site

7. Closeout Requirements

Upon completion, the Contractor shall provide:

- Final backflow test and certification reports
- As-built documentation, if applicable
- Confirmation that all systems are fully operational
- Delivery of all removed devices to the District Operations Center

BID FORM

Base Bid:

The Base Bid for the La Mesa Spring Valley School District project consists of furnishing and installing a total of forty-two (42) new Zurn 975XL2 backflow prevention assemblies across multiple school sites. The work includes installation of complete, operational systems with all necessary piping, fittings, valves, concrete pads, and protective enclosures, in full compliance with applicable codes and manufacturer specifications.

The installations will be performed at the following sites:

- Rolando Elementary School
- STEAM Academy
- Maryland Avenue Elementary School
- Murray Manor Elementary School
- Northmont Elementary School
- Parkway Academy

Devices will be distributed among these campuses as indicated in the project plans. The scope also requires all systems to be properly installed, secured, and ready for operation as part of the District's effort to maintain safe and compliant potable water systems.
